

HELP US HELP YOU....

ALPINE'S SNOW REMOVAL

Just a reminder to our citizens that road conditions are constantly changing during the winter months and will become more difficult to maneuver and drive on. Without proper vehicle equipment you will have a difficult time driving on some of the roads in town during winter. You **will** have a berm in your driveway, you may get stuck, and you may hear a snowplow go by at 3 a.m. This is all part of living in a mountain town.

Just for clarification we often times will try to move berms out of driveways however it is an act of goodwill and is not a requirement. Please do not call with complaints when we are not able to do driveway berms.

Do not inhibit snow removal in any way or at any time.

Stay out of the way of the snow removal equipment.

Do not park in the road right of way.

Do not push, shovel, or blow snow into the road or across the road.

Make certain your garbage containers are on your property and not in the right of way.

We start plowing in the early morning hours when the snow depth is about 4 inches.

Please call the Town Hall if you have any questions.

Let your water drip

The Town of Alpine recommends that when the weather is very cold outside, you let the cold water drip. The reason is that water may freeze in your water line. When all the water in your home is shut off, the water pressure in that line may increase. As water in the supply line freezes, it expands pushing against all the water between the line and your home. This build up in pressure can increase enough to cause a pipe to burst or fracture at its weakest point. Adequately insulating pipes can help to mitigate or completely prevent your pipes from freezing.

Running water through the pipe, even at a trickle, helps prevent pipes from freezing. Even at the slightest drip it can provide pressure relief when needed. A dripping faucet does waste some water, so only pipes vulnerable to freezing (pipes that run through an unheated or unprotected space) should be left with the water flowing. Keep the thermostat set to the same temperature during both the day and at night.

Lincoln County

State of Wyoming

1040 Justice Center Drive – PO Box 1364

Kemmerer, WY 83101

421 Jefferson Street, Ste. 301

Afton, WY 83110

The Lincoln county Sheriff’s Office would like to remind Alpine Citizens and visitors about the use of snowmobiles within town limits.

The Crossing of private property or riding in undesignated areas, such as the golf course greens, is prohibited.

When crossing roadways cross at a ninety-degree angle, yielding to oncoming traffic.

Please remember to use protective gear including helmets for your safety.

Use common sense, good judgement, and be respectful of others’ and their property.

Minors are prohibited from operating any off-road recreation vehicle upon any public streets.

Off-road recreational vehicles are prohibited upon public streets, unless the person has valid registration, insurance and possess a valid driver’s license.

Any person who is under the age of 18 must wear a protective helmet.

All traffic laws apply including speed limitations, stop signs and yielding to pedestrians.

Following the laws and guidelines will make for a safe and uneventful winter riding season for you, your family and your neighbors.

Have fun and feel free to contact the Lincoln County Sheriff’s Office with any questions.

Snow Removal just a reminder for upcoming months we will soon have snow. No person shall park, place or leave any vehicle or trailer on any public street, alley or Town of Alpine right-of-way between the hours of **7:00 p.m.—7:00 a.m.** during the months of **Nov.—April**. No person shall sweep, plow, push, shovel or cause snow to come to rest on or upon any public sidewalk, street, alley, property or right of way of the Town of Alpine or Lincoln County, or upon any private property without the express written consent of owner of such property. **For more detailed information on Snow Removal Please refer to Ordinance 236-12.**

Commode Conversation

Did you know that the Town’s 12-year-old Wastewater Treatment Plant does an incredible job of removing the pollutants from the wastewater and produces the cleanest effluent in the State?

The effluent (Dirty water that has been treated) flows into the Snake River/Palisades Reservoir with 99.9% of solids removed and 99% BOD (Biochemical Oxygen Demand) removal.

As more users connect to the System/Plant there are more and more maintenance costs and supervision required; grit removal in the headworks; needed replacement of membranes, pumps and motors are also required.

Please keep in mind Sanitary Sewer Service is for Residential or Commercial purposes only. Dumping of hazardous materials into the sewer system is **prohibited** and a violation of the terms and conditions of your service agreement.

Just remember your Toilet is not a trash can! When in doubt, remember the **3 P’s** (Poop, Pee & Paper {toilet paper}) are the only things flushed down the toilet! Thank You for your Cooperation in keeping our plant the cleanest in the State! **(please also be mindful about what you are putting down your drains—it all flows to the same place)**

Calendar of Events

Alpine Winter Jubilee
 January 29th
 5:00 p.m.— Free hot dog roast
